PROFESSIONAL SUMMARY

Full-stack software engineer with 6+ years of experience building and shipping web and mobile applications for fintech, banking, manufacturing, and automotive clients. Specialized in the React and Node.js ecosystem with strong backend foundations in Java/Spring Boot and SQL/NoSQL databases. Delivered features for major regional companies (Grupo Q / CrediQ, Banco Agrícola, Localiza), including biometric authentication and digital sales flows used by hundreds of users. Comfortable owning features end to end in remote, English-speaking teams.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript (ES6+), Angular, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express, NestJS, Java, Spring Boot, Laravel, REST APIs

Databases: PostgreSQL, MySQL, MongoDB, Oracle, SQL Server

Mobile: React Native, Flutter, Ionic

DevOps & Tools: Git, GitHub, Linux, Docker, CI/CD, Netlify, Vercel, Tomcat

Practices: Agile/Scrum, code review, automated testing, process automation

PROFESSIONAL EXPERIENCE

Senior Full-Stack Developer

Jan 2025 – May 2026

DEVINTECH — clients: Grupo Q / CrediQ, Localiza S.A. de C.V.

- Designed, developed, and shipped biometric fingerprint authentication in Grupo Q's main mobile app, improving security for hundreds of users.
- Built the end-to-end digital vehicle-quote request flow in the negotiations app, letting users complete the full quotation process online.
- Developed a metrics/history plugin tracking used-vehicle sales performance per salesperson across the platform.
- Added new features to CXPS, Localiza's GPS fleet-tracking system, and delivered multiple smaller enhancements across web and mobile products.

Full-Stack Developer

May 2024 – Dec 2024

LEAGUE (apparel manufacturer for U.S. universities) — Information Technology

- Developed the government-mandated electronic invoicing system, strengthening the company's finance operations and ensuring tax compliance.
- Built a web app for employee ID-badge printing serving 800 employees.
- Delivered internal tools and dashboards to measure business metrics and automate processes, using Node.js, React, and Laravel on SQL Server.

Software Developer (Analyst Programmer)

Nov 2023 – Mar 2024

Óptimas Consultores — client: Banco Agrícola (banking)

- Improved backend query response times for an application serving thousands of banking users, by migrating the database from Oracle 11g to 12c.
- Executed Oracle Forms migration (6i to 12.2) ensuring zero data loss for a major regional bank.

Software Developer (Analyst Programmer)

Sep 2020 – Mar 2021

Xurel — Information Technology

- Redesigned web application interfaces, improving UX and benefiting the client's customer base.
- Enhanced a third-party company's sales-process software, adding features and improvements using Java, Node.js, MySQL, and Oracle.

Network & Technical Support Specialist

Aug 2021 – Apr 2023

WebHelp (Claro account) — Telecommunications

- Maintained data-center networking, VLAN configuration, and IT infrastructure, supporting reliable connectivity for enterprise operations.

SELECTED PROJECTS & LIVE DEMOS

Full portfolio of 15+ deployed applications (React, Node.js, MERN, Angular). Highlights:

- MERN Patient Manager (APV) — full CRUD app with auth: demo-mern-apv.vercel.app
- Real-Estate Listing Platform: demo-app-realstate.netlify.app
- Meeti Events App: demo-app-meeti.netlify.app
- Crypto Price Quoter (React): demo-app-cotizadorcripto.netlify.app
- Food Delivery App: demo-app-delivery.netlify.app
- Shopping Cart / E-commerce: demo-app-carrito.netlify.app

EDUCATION & CERTIFICATIONS

B.Sc. in Computer Systems Engineering

2023

Universidad de El Salvador

AI Expert Engineer — Specialization (in progress)

2025 – 2026

Online

Professional Certifications

- MongoDB Developer Certification (2019)
- Digital Marketing & Web Analytics — Neetwork Business School, Spain (2022)
- WordPress, E-commerce & Conversion Funnels — Neetwork Business School, Spain (2020)

LANGUAGES

Spanish — Native English — Professional working proficiency (reading & writing strong)
